

## ***Large Animals in the Eastern Upper Peninsula***

**A presentation by David Jentoft, Wildlife Biologist with the Michigan DNR**

**Thursday, December 13<sup>th</sup> in Crawford Hall Room 207 on Lake Superior State University's Campus starting at 6:30 p.m.**

**The eastern UP supports a number of larger animals like deer, black bear, and wolves. What is their status? How are they monitored and managed? This presentation will cover this and other information for these species, and touch on some other large animals as well.**

Co-Sponsored by the Three Lakes Group of the Sierra Club and the Lake Superior Watershed Conservancy
