

The Three Lakes Group of the Sierra Club presents:

CHASING ICE

Thursday October 20th at 7:00 p.m. in LSSU's Crawford Hall Rm 207

Acclaimed environmental photographer James Balog was once a skeptic about climate change and a cynic about the nature of academic research. But through his Extreme Ice Survey, he discovers undeniable evidence of our changing planet. In *Chasing Ice*, Balog deploys revolutionary time-lapse cameras to capture a multi-year record of the world's changing glaciers. His hauntingly beautiful videos compress years into seconds and capture ancient mountains of ice in motion as they disappear at a breathtaking rate.
